The projects in Georgia approved yesterday were:

Augusta, repairs to city hall, \$11,985 grant. Augusta, building of new Richmond county jail, \$675,000 grant. Augusta, construction of new classroom building for the school of medicine of the state university system, \$33,750 grant. Rockmart, paving of city streets, \$15,120 grant. Macon, addition to gymnasium of the Lanier High school, \$19,080 grant. Lyons, auditorium for Parker school, \$2,455 grant and \$3,000 loan.

The grants made by the PWA are 45 per cent of the cost of the projects. Total cost of all this approved construction will be approximately \$340,-500.

Conditions set out by President Roosevelt were that all projects must draw their workers from the relief rolls and that they must be completed in one year.

With "Go" signals showing all along the line, the American railroads are driving ahead to new triumphs in service and efficiency-going after business, and getting it, in a way to make any railroad man justly proud. Of course the recent years have not been easy; they have been tough for the railroads just as they have for most other kinds of business.

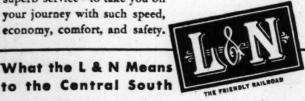

But in face of tough times, these dependable carriers have made their bid for increased business by stepping up freight train speed by 43%, by cutting the running time of passenger trains, and by increasing their comfort by air-conditioning, which means greater cleanliness, restful quiet, safe agreeable travel at its best.

And at the same time there has steadily gone forward a vast program of improvement, which only a man who works on the railroad could see and appreciate in full -\$172,000,000 invested in the past six years in laying heavier rails-a third of a billion dollars spent during the same period in new track construction and more than three billions put into right-of-way maintenance-all of which makes faster schedules possible with safety.

Yes, a lot has been happening to the railroads-and the L & N is proud to have a part in this development. Never before was this road in position to give you such superb service-to take you on

your journey with such speed,

F. D. R. TO DECIDE EASTPORT, Maine, July 28 .- Before ON QUODDY PROJECT leaving for Canada to do a little neighboring with our friends across the line, President Roosevelt will probably decide whether to close the Quoddy village, put up the shutters and drain the pipes, or keep it open somehow. The Quoddy dam and and drain the pipes, or keep it open somehow. The Quoddy dam and the village are strictly the boss' own show, although the United States army corps of engineers has done the work. He has been summering in these waters, boy and man, years and years and has watched the decay of Eastport and the change in people with the naked eye. He remembers when Eastport was a busy fishing and canning town, for the Roosevelt summer home on the Canadian island of Campobello is just a few miles out from the town wharves and Eastport is the jumping-off place. So he probably was feeling a little sentimental when he appropriated \$10,000,000 out of the big relief kitty toward the building of the dams which were intended to create a tremendous power plant which, in turn, was expected to serve as a honey-pot to attract the economic royalists with their factories and cargo ships. Later on, when he wasn't looking, someone snitched away half of the \$10,000,000 for some other philan-Throphy, but in one of those titanic crap games between the departments in Washington, the Quoddy proposition ultimately picked up \$2,000,000 more, making a total of seven. The seven million is almost spent now and the work is tapering off sharply so that the last man will be paid off with the last dollar.

As a result of the Austro-German entente, the Holy Alliance has been revived. And just as before 1914, there is no great camp composed of Berlin, Rome, Vienna and Budapest—a camp of revolutionists who doubt that the last dollar.

NO DEFINITE PLANS
The boss obviously expected to jam this thing through, because even the original ten million was less than one-third of the total ultimate cost and he made no definite plans for obtaining the rest of the money. He probably figured that with seven million already spent and with a beautiful tailormade village standing on the outskirts of the project nobody would have the nerve to call his bluff and shut down the whole job unfinished. However, that is precisely what happened and the engineers under Colonel Phil Fleming are getting ready to chuck it by the 15th of August. By that time, four small dams will be finished but useless, because two big dams and some other works have not even been started. The four use- gium and Jugoslavia. railroad fill or highway grade. The village, which cost about a million and a half, is the great pain in the neck, for there are thousands of families in this part of the country living in terrible kennels, raising pasty, peaked little kids in smelly squalor, and it wouldn't look just right for the United States government to set armed guards over an empty fown less dams are not dramatic, however, because they look like so much the United States government to set armed guards over an empty town of 120 separate houses and two apartment buildings, with quarters for 425 families, while the snow sifts in through the cracks of the shanties where the lower classes pursue their wretched existence.

These houses and apartment buildings FROM CENTRAL PLANT are heated from a central plant on the edge of the village and the turn of a little gadget on the wall brings the steam hissing and banging through the rooms. The cook-stoves are electionary trical and, of course, there is electric light. All this sounds very luxurious and much too good for the lower orders, but the army engineers are a tight-fisted lot, a curious paradox, considering their current role of expert spendthrifts, and they built the homes at a cost of about \$2,500 per family unit, including the heating plant, water supply stoves, a first-Tom Thumb hospital, and a beautiful fire engine complete with red shirts and firemen's hats. If you count in the dormitory or inn for co-soviet alliance. single-handed people, the city hall and another building used as a mapon the job but suitable for a schoolhouse, the cost per house in tente between them have standing armies totaling 2,000,000 men. France has 560,000 men in the field, Russia the village comes down to about \$2,000 per family.

When you consider the salaries which are being paid to thousands of grafters and parasites in the so-called service of the government all over the country, but particularly in Washington, the village seems an excellent dollar's worth per dollar. Lop off about 200 press agents and keepers of the scrapbooks and you save in one year the price of the 425 homes in Quoddy village.

DEATH OF WILSON **PUZZLES CORONER**

Jury Unable To Determine by Whose Hand Atlantan Was Slain.

A coroner's jury reported yesterday that it was unable to determine at whose hands M. L. Wilson, 42, of 277 Whitehall street, met his death. Wilson was found shot to death Monday afternoon in his bed and a shotgun lying near by.

The first hint of a murder came when relatives and friends informed

police that a note supposedly left by Wilson was not in his handwriting. A further investigation will be conducted by police and Donald Druken-miller, special investigator for the city, was instructed to determine if the note was in Wilson's handwriting. the note was in Wilson's handwriting.
Wilson is survived by his wife;
four sons, Fred, Ralph, Troy and
homer Wilson; a daughter, Miss Thelma May Wilson; his mother, Mrs. S. R. Wilson; four brothers, W. B., L.
P., J. E. and N. D. Wilson, and three
sisters, Mrs. J. T. Henry, McDonough; Mrs. J. F. Elliott and Mrs. J.
L. Miller.

Funeral services will be held at 11 o'clock this morning at the Stock-bridge Methodist church and burial will be in Stockbridge cemetery with Harold H. Sims in charge.

The total number of theaters in Greater New York is estimated at more than 4,000.

"DANCING LADY" FRIDAY A TRIUMPH FOR ALL 3!

Directed by A Metro-Goldwyn-Mayer Metura

Thanks a Million, Folks !

The Capitol Theatre management wishes to take this opportunity to thank the thousands of Atlanta men, women and children who have visited us so far this week, for their kind words of praise and favorable comments in regards to our stage and screen program. When something is really good, people talk about it. That's the reason the Capitol's feature, "HUMAN CARGO," starring Claire Trevor, and our stage show, "LET'S HAVE A PARTY," are the talk of the town. Only four more days remain, and then, our program, the one everybody is discussing, will be gone forever. It cannot and will not be held over. Again, to those who have visited us this week, we say, thanks a million for your kind words.

today in the search for the ravisher-murdered of the 18-year-old New York University honor student. "There are no developments."
Brown brusquely told newspapermen,

'I don't expect to have anything to give you for several days."

Chief Deputy Frank Messer disclosed meanwhile that in a routine questioning of the hotel employes a days ago a chambermaid's chart was found which showed the door to Miss Clevenger's room was locked from the inside at 8:20 the fateful morning.

Officers said, however, they were carefully checking over all available evidence, including the statements of guests and attaches of the hotel, in the hope of finding a lead to the in-truder who fired a .32 bullet into the 18-year-old victim's chest and batter ed her face, apparently while she on her knees pleading for mercy.

Statement Obtained. Chief William J. Everett, of the city police, revealed that his detec-ives had obtained from W. C. Gatlin, of Johnson City, Tenn., who spent the night at the Battery Park, a statement that he heard a noise "like a pop bottle exploding" about 1 a. m., of July 16.

The killing is believed by officers to have been perpetrated at that hour when a severe thunderstorm was sweeping this resort city. Gatlin was quoted as saying he heard three piercing screams, a wom-an's voice begging "Please," and a man's voice replying "Shut up."

Screams Heard. Other guests have told of hearing reams at the same time. Everett made a hasty trip to Char-tte today, but did not disclose reported to colonial authorities-neartte today, but did not disclose hether it had any bearing on the

on our entire fleet of Yellow Cabs to protect our 20,000,000 passengers against the dangers of blowouts and skidding and because of their dependability and economy"

Thomas B. Hogan, Pres., Yellow Cab Co., Chicago, world's largest cab fleet

EVERY car owner can profit from the experience of big tire users who buy tires on proof of performance.

In operating the largest fleet of cabs in the world, the Yellow Cab Company not only know the importance of taking every precaution to carry their passengers in safety, but they fully realize the necessity of providing dependable, uninterrupted on-time service. They use Firestone Gum-Dipped Tires - the safest and most dependable tires built.

Firestone Tires give greatest blowout protection because they run up to 28 degrees cooler. This is due to the Firestone patented process of Gum-Dipping, which prevents internal friction and heat, the greatest enemy of tire life.

Yellow Cabs make millions of stops every day. It is essential that they use tires giving greatest non-skid efficiency. Firestone Tires will stop a car up to 25% quicker, as proved in exhaustive tests made by a leading university. The scientifically designed non-skid tread, with more and tougher rubber-on the road, will give you 50% longer non-skid mileage.

Take no chances! Follow the lead of big tire users who buy their tires on proof of performance.

By Alan Gould.

BERLIN, July 28.—(P)—The

clouds rolled by after nearly 24 hours of heavy rain today, the sun emerged

Remember the Carr-tridge ball which used to explode with such vigor in our baseball set a few seasons back?

The ball was exploding in that manner last night out at Ponce de Leon park. The fly balls often had the outfielders backed up against the walls.

And there were two home runs which were most explosive. Bud Connolly, of the New Orleans people, hit one in the second Crawford, England today completed inning. It was a line drive which was just beginning to rise her conquest of Australia in the chalwhen it landed among the colored fans in the left field grand-It was a he-man home run, whistling as it went.

In the third, the French influence was felt. Pierre Emil Mailho, of the California French settlement, hit one to deep right field. It went back so far they had to probe for it. It was the longest drive of the year-this one which Mailho banged to tie up the score.

What with the long hits exploding like bombs in the air, and with the names which were shouted at the umpire, it proved to be a very warm and pleasant evening.

A lady fan, who kept referring to Mr. Steamboat Johnson as a big monkey; and another lady who upbraided the New Orleans people in a voice which sounded like rocks going through a rock crusher, added to the general din and fun.

The Crackers played good baseball. It is curious what reports get around town. There is nothing wrong with the ball club's morale except it is in a bit of a slump, or has been, and the pitching staff is somewhat crippled.

But the boys can still stay in there and play very nice baseball. We'll take these other nines. I'd say the pennant is ours. Come what may come. You should have been with us last evening.

HITTING IN RUNS.

Ball players pay their best compliment to a hitter when they

The Quist-Austin match was a softwork. Archie San Romani, young mid-'Some fellows like to hit when men are on bases," said good lead-off man, one who must go up there with the bases empty and try to work the pitcher for a hit or a base on balls.

"Ive known some players who were easy when no one was on. But when runners were on base they were dangerous. Our own Bud Connolly is one of them. He is batting just .273, which isn't a great batting average. There are many players ahead of him. Yet he is sixth in the league in runs batted in. He has driven in 74 runs with that .273 percentage. Just put men on base and he is twice as tough to pitch to as when the sacks are empty."

"Why is it?" I asked Larry Gilbert.

"I don't know. It's just one of those things. Psychology, I guess. The fellow who is nervous gets up there and tries to do a lot of guessing. He doesn't hit so well. When there is Meter no one on he doesn't worry. But the man who can hit the boys in goes up there with his mind made up. He usually is a good judge of balls. He can't be made to hit at any bad ones."

THE WEATHERLY CASE.

Stormy Weatherly was sent up by Larry Gilbert to the Cleveland club and is a sensation there.

In a recent interview Weatherly put a mild blast on the Southern association umpires, saying a player in the Dixie circuit had to strike at a lot of bad ones down here because the umpires called too many bad ones strikes. Gilbert reported he had done a lot of work on

Weatherly's batting. hit at a lot of bad balls," said Gilbert. worked with him quite a lot, standing behind him when he hit and calling him each time he hit a bad one. Then I got sick and when I got back he was hitting bad ones again. But when he left he was waiting for the good ones."

This is one of the greatest faults of young playersbiting at bad ones-which is to say swinging at pitches which if let alone would be called balls and not strikes.

Once players attain a real "batting eye" they never lose it. The first thing to go about an athlete's physical make-up is his

Wilbert Robinson insisted he could tell a pitcher

One of the men wanted to know if he could tell by seeing only the legs. Robbie said he could. So the next day they tried it. Robbie picked out the Brooklyn pitchers by their legs. But there was one man standing behind the curtain, with just

his legs showing, who also was selected. And when he walked out he was an armless man.

They thought they had Robbie. But they didn't. "Shucks," he said, "what a pity it is the man has no arms. What a pitcher he would be."

He convinced the crippled man. By the time the afternoon was over the man's sorrow at his physical infirmities were greatly increased. He was convinced he would have been a major

Britain's Ace Defeats Crawford in Straight Sets Before Big Crowd

The Australians' gallant uphill fight, which saw Adrian Quist knot the series at two each with a 6-4, 3-6, 7-5, 6-3 victory over H. W. (Bunny) Austin today, went for naught when Perry, abounding in confidence and with plenty to back it up, romped through the stolid Crawford, 6-2, 6-3, 6-3.

Perry's victory gave England the five-match series, three to two, and marked the English ace's eighth successive singles victory in the challenge round since England defeated France in 1933. Perry, apparently anxious to set the fears at rest, tore into Crawford with the style of game which has carried him to the top of the tennis world. Not once during the three sets was Crawford in the lead, although he frequently carried the games to deuce. Perry dropped only one service and easily returned just about everything the Australian had to offer. Time and again he caught Crawford flat-footed with well-placed angle shots or backhand drives to the corners.

SONG OF THE UNWHIPPED. I have learned something well worth while That victory could not bring— To wipe the blood from my mouth and smile

Where no one can see the sting;
I can walk, head up, while my heart is down
From the beating that brought its goad,
And that means more than the champion's crown As he's taking the easier road.

I have learned something worth far more
Than victory brings to men;
Battered and beaten, bruised and sore,
I can still come back again; Crowded back in the hard, tough race,
I've found that I have the heart To look raw failure in the face And train for another start.

Winners who wear the laurel wreath, Looking for softer ways,
Watch for my blade as it leaves the sheath,
Sharpened on rougher days; Trained upon pain and punishment,
I've groped my way through the night,
But the flag still flies from my battle tent
And I've only begun to fight.

GIANTS CAPTURE CHISOX BATTER DOUBLE - HEADER ATHLETICS, 19-6;

Four-Run Rally in Ninth Weber's Homer, Knox's Double Beat Browns; Indians Beat Senators.

NEW YORK, July 28.—(P)—The Giants picked up a full game on second place in the National league to day by downing the Cincinanti Reds in both ends of a double-header, winning the opener, 5 to 1, and slugging out an 11-to-3 edge in the nightcap.

A four-run rally in the ninth, climaxed by Dolph Camilli's second homer of the game and his 19th of the season, gave the Phillies a 5-to-3 victory over the Chicago Cubs.

Pinkey Whitney started the rally kirk's four-bagger were outstanding.

Dorothy Ramspeck Visits Mexico With Major and Mrs. Pendergrast

By Sally Forth.

RIENDS of blonde and pretty Dorothy Ramspeck, daughter of Conressman and Mrs. Robert Ramspeck, will be interested to know that she is spending this week in Monterey, Mexico, and enjoying an extensive motor trip to ancient sites and landmarks in this historic old country. Dorothy has been spending several weeks as the guest of Major and Mrs. G. H. Pendergrast at Fort Sam Houston in San Antonio, Texas, and their current trip into old Mexico is just one of the many activities and pleasures which have highlighted her visit. Jim Pendergrast, son of Major and Mrs. Pendergrast, is a member of the motor trip, as well as part host to the pretty Atlanta visitor. Dorothy and Jim are having many good times together this summer attending dances and other social affairs at the popular Texas army poort which is evidenced by the fact that her parents have had only post, which is evidenced by the fact that her parents have had only one letter from her since she time when Margaret will bring

You can make up for an occasional loss of sleep but the habit of going without the sleep you need will break down your health and beauty. The average person ove 18 needs eight hours sleep, many require nine. An underweight person needs more than the average number of hours, since an abundance of sleep is necessary in the storage of vitality.

NANCY PAGE

Nancy Uses New Tricks in Iced Beverages.

By FLORENCE La GANKE.

Who said "iced tea?" There was never any question who would say iced tea at Nancy's home. It was always popular. She made strong tea ahead of time, strained it and put it to chill. She usually froze a middly sweetened lemon and water mixture into cubes. As they were partially frozen she inserted a fresh mint leaf or a cocktail cherry. Sometimes she put in a piece of candied ginger. At serving time one or two of these cubes went into each tall iced tea to tagte. There was always additional lemon in the shape of easily grasped wedges for those who did not get enough tartness from dissolving lemon ice cubes. Nancy was careful not to make this lemon water-sugar cube too sweet because such a mixture will not freeze in the mechanical refrigerator.

When she made iced coffee she was put in as well.

filled them almost to the brim with one rather large piece of cracked ice. She made a pot of strong, drip coffee. She poured rich cream into a pretty pitcher and placed cubes of sugar in the sugar bowl. She put on her little syrup pitcher too. Then she prepared some whipped cream if the occasion was especially festive. Into this as she whipped it she put a little, not much, of the dessicated instantaneous coffee. This gave just a trace of flavor and color.

At serving time she poured the hot coffee, hot as hot could be, over the ice in the glasses. She liked to watch the ice go down in defeat before the hot onslaught.

Then the makings were passed and each guest helped himself to cream if he wanted it. It was a real picture when that rich cream trikled down into the brown coffee, changing it to a rich ivory color. And then on top went the whipped cream for those who did not mind the calories.

By CAROLINE CHATFIELD. Problems of general interest submit-ted by readers will be discussed in this column. Correspondence invited Your name held in confidence. Write Miss Chatfield, care The Atlanta Constitution.

DEAR MISS CHATFIELD:

My marriage is entirely happy but a condition exists in my mother's life that disturbs me no end. She is an exceptionally gifted person, youthful, attractive and lovely with her children. Father has never assumed any responsibility for the family. He's a quiet-body, likes to sit and read. All the children are married but one who is at home. I have often watched my mother when left alone with father; she seldom speaks. I think she dislikes him. Since my marriage she has lost a great deal of her former enthusiasm. I cannot bear to see her tragic eyes and her smile that is only on the lips. Something terrible is happening to her. I know she didn't want me to get married but having given her years of devotion I thought I had the right to marry the man I loved and leave her. I have decided to see as little of her as possible so she will become weaned from me. I don't encourage her to visit me and I find excuses for not visiting her often. My husband approves of this plan and we would like to hear what you think of it. any responsibility for the family.

she will become weaned from me. I don't encourage her to visit me and I find excuses for not visiting her often. My husband approves of this plan and we would like to hear what you think of it.

ANXIOUS.

Friend, it would be hard to conceive of a more cold-blooded and cruel plan than you and your husband have hatched. In one breath you express your self as sympathetic with your mother's silent sorrow and her hungry heart. In the next breath you declare that you are going to take from her the half loaf and teach her to live on crumbs. Perhaps you are not conscious of the motivating cause of your determination to separate yourself from her but I can tell you what it is. Her tragic eyes and her humourless smile cast dark shadows on your happiness and you and your husband are moving out from under those shadows. Can't you see how essentially cruel and cowardly is that happiness and you and your husband are moving out from under those shadows. Can't you see how essen-tially cruel and cowardly is that

Nobody can criticize you for having married the man you love, even though you did it against your mother's wishes. But anybody with an ounce of the milk of human kindness must criticize your for deserting her when her eyes plead with you to stand by. Furthermore your conscience will lash you. You can't still it with specious arguments or put it to sleep with smooth talk about weaning her for her own good. She is no child to be disciplined by you, her daughter. She is your mother and deserves your devotion and your loyalty.

Doubtless she has carried the cross Doubtless she has carried the cross of living with an uncongenial husband for the sake of her children and for this she merits more than desertion by you. Maybe your marriage is entirely happy now, but look out for the future. If ever there were a true saying it is this: "We reap what we sow," More true in connection with human relationships than in any other realm of life.

"When you are old and gray and all the years are gray and old about you, you will remember this;" that you turned your back on your mother's pleading eyes and left her lonely and wretched, while you and your husband took your fill of happiness.

(Copyright, 1936, by the United Press.)

NEW YORK, July 28.—UP)—

Further bullish views prevailed in Wall Street tonight after the stock market had absorbed profit-taking excellently and the United States Steel Corporation reported the best earnings since 1930.

The profit-taking cut widely into some issues, particularly the motor shares, with Chrysler off more than a point, but trading dried up on this development. The result was that a recession was staved off and the industrial and railroad averages went to new highs, the former since 1931 and the latter since 1933.

Chief interest centered on the various expression reports all of which

NEW YORK, July 28.—(P)—

Mines, utilities and specialties were losers in an irregular curb market today.

Down fractions to a point or more were Aluminum Co. of America at 135, Newmont Mining at 88 1-2, Sunshine Mining at 13 1-2, Wayne Pump at 32 3-4, American Gas & Electric at 44 1-8, Cities Service at 4 5-8, Lake Shore Mines at 58, United Gas at 7 3-4, United Light & Power "A" at 8 3-8 and Mapes Consolidated Manufacturing at 21 1-8.

Aided by sharp earnings expansion Jones & Laughlin Steel ran up 3 to 41. Pittsburgh Plate Glass was up 4 at 135. Shares up fractions to 2 points included Western Auto Supply A"" at 50 3-4, Gulf Oil at 88 1-2. Pan American Airways at 58 3-8, and American Cyannid "B" at 36.

Sales of 392,000 compared with 418,000 the day before.

until 11 o'cloc. in the morning. Dr. L. B. Kennington, of Cochran, Ga., president of the organization, will call the meeting to order a few minutes after registration has closed. Dinner will be served at 7 o'clock that night, and during the meal there will be a floor show.

Talmadge will address the body. Senator Richard B. Russell will appear at the association's afternoon session. Several other political figures are scheduled to speak during the meeting.

Beauty Contestants Must
Apply by 9:30 Tonight.

Zero hour for registration in the "Miss Atlanta of 1936" contest is 9:30 o'clock tonight, it was announced last night by the Paramount theater management.

The contest is sponsored by the theater and the management of Lake wood park. Winner of the contest will be sent to Atlantic City to compete for the coveted "Miss America" title. Tonight's closing date was previously extended from last Saturday night.

Preliminaries to choosing "Miss Atlanta" will be held at the theater this Friday and Saturday nights. Review of the girls, by judges and audience, will start at 9 o'clock each night. Finals will be held at Lakewood park at 2:30 o'clock Sunday afternoon.

Mike Benton, president of the Southeastern Fair, yesterday announced an elaborate stage and boardwalk for the contestants to parade upon had been built.

Carriage Cover in

When you take baby for his airings, bundle him in with this adorable cartiage set—pillow and cover! You'll find it easiest of the easy to do, in just plain crochet, and most appealing in white with blue or pink, or in two shades of one color. It's glorious fun to watch those playful kittens appear one by one, as the simple stitches mount up. Use Germantown wool, for it's both lightweight and warm. In

KEY APPROVES BUREAU FOR POLICEWOMEN Restoration of a women's bureau in the city police department was fa-vored yesterday by Mayor Key, who said he voted originally for its crea-

tion years ago.

A delegation from the women's division of the Atlanta Chamber of Commerce, headed by Mrs. William P. Dunn and Mrs. Ada M. Colvin,

P. Dunn and Mrs. Ada M. Colvin, the latter secretary of the division, called on the mayor yesterday morning at his office.

The women urged revival of the bureau esnecially since Mrs. Lora C. Davis and Mrs. Vannie McDonough, policewomen discharged last year by the police committee, were ordered reinstated by Judge Virlyn B. Moore in Fulton superior court. Two nolicewomen are already members of the department.

partment.

Though members of the safety committee of city council and officials of the department announced the work of the women's bureau had never ceased even after Mrs. Davis and Mrs. McDonough were fired, the women's division of the chamber requested that the bureau as constituted previously be restored. Mayor Key said he would "lend his moral support" to the restoration.

TARZAN AND THE MAYAN GODDESS No. 27

The thunderous hoofs of the beast bore down on Tarzan, who stood awaiting him-a valiant matador without a weapon. When the bull was almost within reach, he tossed his horns. A low murmur arose from the spectators, who expested to see the stranger mangled.

But at that moment Tarzan leaped lightly aside. No spangled toreador of Spain could have performed the feat with more agile grace than this stranger from the Africar jungle. As he leaped aside, the ape-man whirled, and now he charged the vicious bull!

When the infuriated animal turned, Tarzan sprang, and clutched those horns of death. Then began a test of strength—the extraordinary strength with which Nature had endowed the bull, and the strength which the mighty ape-man had developed in his jungle homeland.

By Edgar Rice Burroughs

In the crowd a sinister Indian whispered to a sullen-faced companion: "He is strong-that one." Senor Raglan gave us a hard task, amigo, but it will be done!" An evil smile spread over his face, and he tapped his sash, where a long, slender

So Says Mr. McCollum—

"Gee-Ain't It Hot?" HAVE YOUR CREDITORS turned on the heat, too? That is a situation you can do something about. If your scattered obligations amount to more than you can take care of immediately, see me I'll lend you \$80 to \$1,000 to get them all together, and you can take ONE TO TWO YEARS to repay, at interest less than 1 per cent per month per annum, see me at the Seaboard Loan and Savings Co., 12 Pryor St., S. W.

MASTER LOAN SERVICE announcing a new plan on loans, \$100 and up on signature only, for those who can qualify; or on security of furniture or endorsement. Not one penny of interest deducted and of course you only pay interest for the actual time you keep the money. Why pay a year's interest in advance when you may only need the money a few months. This is the only company in Allanta operating strictly under the new small loan law.

CLEARANGE

Translated into English for our Coexhibited.

From the Sagas we learn that about the year 984 a young Norsecause of the color of his hair, killed a man in his native land and fled to Iceland. There he lived for some years, until banished for a similar crime, when he sailed westward to Greenland.

The next year, after having returned to Iceland, he revisited Greenland with a large fleet of ships filled with immigrants; but one of these and Bjarni Herjulfson, her commander, coasted on a strange land to the southwest, which on his final arrival at Greenland he reported to a subtweet they were chibited.

This place, now thought by some to have been Labrador of Newfoundhand, he called "Helluland," on account of the number of started.
